Ani Says

The Crown Prosecution Service (CPS) has [dropped](#) all "Zionist"-related charges against Canary anti-genocide activist Ani Says. [Again](#) The Israel lobby has continually pressured the CPS to keep trying to criminalise Ani on multiple occasions, but the attempts keep failing. In a statement on Instagram, the Canary said:

The CPS has DROPPED all charges relating to "Zionism" that were brought against Canary journalist @anisaysbackup. These spurious allegations were once again instigated by the Zionist lobby and once again the CPS bowed down. But the justice system has seen sense.

Ani also [defeated](#) an attempted private prosecution by Israeli *actress* Gal Gadot.

Lawfare to protect Israel against Ani Says

[Right to the unlamented death of his vicious, quisling tenure](#) Keir Starmer has waged a *lawfare* war on the rights and freedoms of UK citizens to protect genocidal Israel. Like the war criminals he has enabled and protected, he belongs behind bars in the Hague.
