Ben-Gvir speaks at a microphone

[Fascist Israeli security minister](#), Itamar Ben-Gvir, has told a meeting of Netanyahu's cabinet that the occupation regime needs to abduct more Lebanese women and children.

[He told](#) his fellow ministers that killing many Lebanese resistance fighters is good but that arresting their women and children

This is what hurts them most.

## Ben-Gvir/Israel's actions met with impunity and silence

As the International Committee of the Red Cross [notes](#) collective punishment of civilians is unequivocally a war crime. The minister is used to getting away with committing and inciting war crimes.

So far, the UK government has not condemned this one. Or even mentioned it.
