

Iran orders occupiers to flee northern Palestine if Israel bombs Beirut

Description

default watermark

Iran issues warnign to Israel

The area of ordered evacuation.

Iran has [issued](#) an order to the occupation's military and illegal settlers to flee northern occupied Palestine before it bombards the area. Tehran also said the attack will come if the colony's "criminal leaders" bomb Beirut, as they have [said they intend](#)

Iran warns Israel's criminal leaders

The order in Hebrew, translated to English, reads:

We announce to the settlers in the occupied north of Palestine that the area specified in the attached map, which includes the Upper Galilee, the Lower Galilee, the Golan, and Haifa, has become a closed military zone as of this moment.

In the event that your criminal leaders target the southern suburbs of Beirut or the city of Beirut, this area will be a target for attacks by the Iranian armed forces.

The [terror state](#) getting a [default watermark](#) its own medicine. And given the performance of Iranian drones and missiles so far against Israel's [forces](#), Tehran is capable of delivering on its warning.
