gaza

According to eyewitness reports in [Gaza City](#), the Israeli occupation military has set up cranes around the city, each 100 feet tall. The IOF is using these as platforms to slaughter civilians. In tents, in cafes, in what remains of shelters. Gaza journalist [Tamer Nahed](#) posted his description to his X account:

A very dangerous new nightmare we are living in Gaza City, and no one in the world is paying attention to it.

Days ago, the Israeli army installed huge military cranes, each about 30 meters tall, on the eastern areas it controls. These cranes are equipped with machine guns andâ€¦!

## Gaza under attack

The report evokes scenes reminiscent of HG Wells's *War of the Worlds*, in which alien invaders use tall, mobile machines as platforms for the eradication of the native human population. Which is exactly Israel's aim in Gaza, real life and not fiction.
