

Israel lobbying US to murder chief Iranian peace negotiator

Description

default watermark

Israel

Founded as it is on a murderous, racist ideology and run by a man [using constant war to stay out of prison](#) Israel has no intention of allowing peace to break out between the US and Iran. Israel's fascist security minister Itamar Ben-Gvir [boasted](#) that Israel would not allow a deal between Trump and Tehran to go through. The US [promptly attacked Iran again](#) in another appalling, but not shocking, [display](#) of bad faith. But the apartheid colony isn't satisfied and has been [demanding](#) that the US murder Iran's chief negotiator, [highly-educated](#) parliamentary speaker Mohammad Bagher Ghalibaf.

Tehran is not in a mood to tolerate any more such cowardly nonsense from the US and its missiles [inflicted](#) fresh damage on at least one US base in the Gulf.

The US and Israel have murdered thousands of innocents in Iran since they began their latest illegal war with the slaughter of almost 170 schoolgirls. The war is a disaster for ordinary people around the world as fuel prices spiral and economies teeter.

Israel self-inflicted

But it's also a disaster for the US and Israel. They are getting their backsides handed to them as even US media are now being [forced to admit](#) Iran has hit all the US's bases in the region and [pummels Israel at will](#). The US has been completely unable to prevent Iran closing the Hormuz Strait or attacking oil and other facilities in its local vassal kingdoms. Iran is stronger than it was before the US-Israel war of aggression.

Yet Trump still can't say no to Netanyahu, despite regularly claiming a deal is close. Now Netanyahu wants him to order the US military to copy [Israel's tactic of slaughtering negotiators](#) to prevent

peace. Compliance is spelled E-P-S-T-E-I-N, maybe?
