Israel

Israel and the US will start herding Palestinians into [concentration camps](#) ‘‘euphemistically termed ‘‘shelters’’ ‘‘within a matter of weeks’’, [according](#) to Israeli media.

Gaza’s Palestinian people will be forced into fenced and guarded ‘‘humanitarian shelters’’ under the plan implemented under Trump’s Orwellian-named ‘‘Board of peace’’. Victims will first be herded into Tel al-Sultan, an area systematically flattened by the occupation, They will then be moved out and packed into to several sites in Rafah that they will not be allowed to leave.

Israel ‘‘ refusal is ‘‘terrorism’’

This will be combined with a further seizure of land in Gaza by the IOF. Any Palestinians refusing to move into the camps will be treated as ‘‘terrorists’’.

An Israeli government source told pro-Netanyahu rag *Israel Hayom* that the occupation military will maintain:

the pace of targeted killings while remaining below the threshold of international criticism.

Trump’s land-theft board is already [posting](#) images of ‘‘tactical vehicles’’ arriving in preparation for the plan’s implementation.
