

No. 10 cat is the UK's most stable, sensible figure - charlatans come and go

## Description

default watermark

Larry the cat and Keir Starmer

In 16 years of sick political farce, Number 10 has seen a string of [toxic clowns and charlatans](#) arrive, then leave in disgrace and dishonour. Starmer's the latest.

## Outlasting every PM, including Starmer

Six sorry excuses for PM in since 2015. In order, we have, [David Cameron](#) [Theresa May](#) [Boris Johnson](#) [Liz Truss](#) [Rishi Sunak](#) and now [Keir Starmer](#) - all now (wrong-side) history. And if Number 10 has seen them sink off, so has its cat, Larry.

## Seeing off foxes

But sometimes the cat is more proactive. It even had enough [sense](#) to give Liz Truss, Donald Trump and Volodymyr Zelenskyy the cold shoulder - and saw off a fox and several pigeons. Perhaps he could be trained to see off Israeli ministers and their fixers. Then there might just be a sliver of hope of actual change in Downing Street.
