In what may be his strangest move yet, Tommy Robinson has released a video of himself with [Elon Musk](#)'s father, Errol, an alleged sex offender.

For clarity's sake, we're not saying it's a "strange move" because Errol has faced accusations of sexual abuse. After all, hanging around with alleged sex offenders is [par for the course with Robinson](#). What's *not* standard practice, however, is pissing off his wealthy backers and as we'll get into, Elon *despises* his father.

Tommy Robinson and Errol Musk

Elon Musk has previously covered Robinson's legal costs, [as Robinson openly admitted](#). People also suspect Elon has artificially boosted Robinson's reach on the Musk-owned X/Twitter because Robinson is all over its timeline posting suck-up posts like this:

How did I just make a full blown movie trailer with myself in it all on grok imagine 1.5

This would've cost 100s of thousands to produce years ago [@elonmusk](#) really doing his thing. pic.twitter.com/DYaan3LCRc

In the video above, Robinson says:

Enjoying my day with?! This is for my ex-subscribers, Errol. Say hello to them.

Errol responds:

Hi, ex-subscribers of Tommy.

Tommy then says:

We're gonna go and cause trouble.

Errol retorts:

Yeah, no trouble. Doing things right.

Robinson then laughs as he says:

Trying our best to.

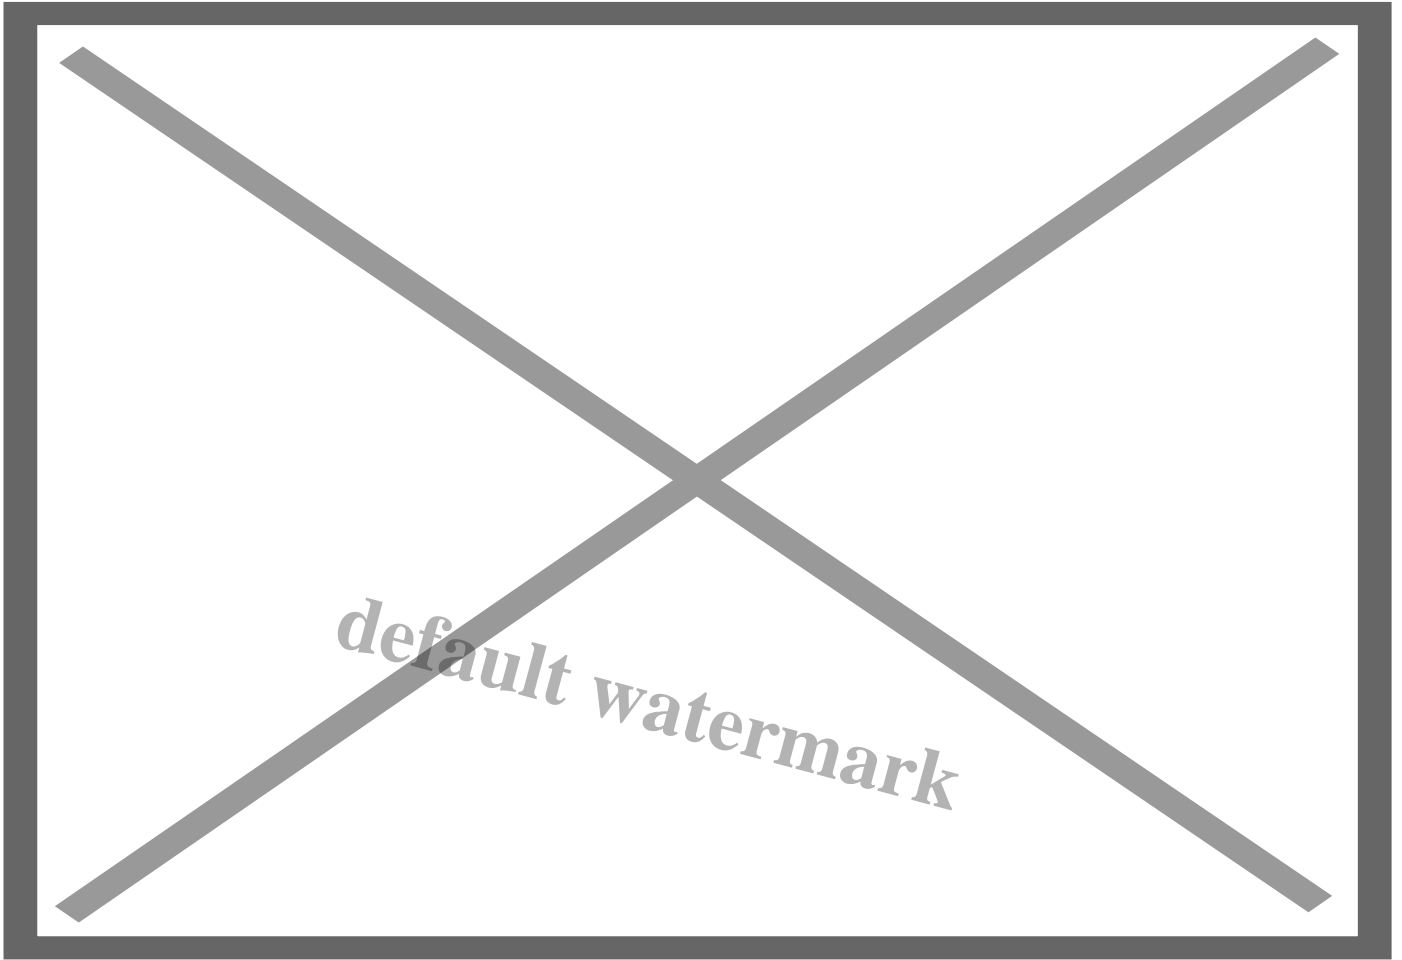

He likely won't be laughing once Elon gets a look at this little love in.

The relationship between Elon and his dad

While there really is no excuse for Elon being the way he is, knowing more about his father does at least explain how we ended up with this absolute dustbin of a human being.

HuffPost (@HuffPost) [April 8, 2024](#)

There are “daddy issues”, and there’s whatever the f*ck this is. And as we said, this strange behaviour doesn’t come from nowhere.

[Benzinga reported](#) that Elon said the following about his “terrible” father:

In my experience, there is nothing you can do. Nothing, nothing. I wish. I’ve tried everything. I tried threats, rewards, intellectual arguments, emotional arguments, everything to try to change my father for the better, and he, no way, it just got worse.

Speaking on how he came to live with Errol, Elon said ([summarised by the Guardian](#)):

I felt sorry for my father, because my mother had all three kids. He seemed very sad and lonely by himself. So I thought, “I can be company”.

I didn’t really understand at the time what kind of person he was! It was not a good idea.

Elon isn’t the only Musk to have accused Errol of being a wretched human. A *New York Times* investigation revealed that Errol has faced multiple accusations of sexual abuse from family members,

including

- A stepdaughter who accused him of touching her in 1993, aged four
- The same stepdaughter accused him of sniffing her worn underwear a decade later
- Three police investigations into his behaviour

Outside of the allegations, it's 100% confirmed that [Errol fathered two children with his former stepdaughter](#) Oh, and Errol has also admitted to killing three men, [supposedly in self-defence](#)

Given all this, then, it's understandable why Elon would say:

He was such a terrible human being, you have no idea. My dad will have a carefully thought-out plan of evil. He will plan evil. Almost every crime you can possibly think of, he has done. Almost every evil thing you could possibly think of, he has done. It's so terrible, you can't believe it

The question is how will Errol react about seeing his minion, Tommy Robinson, with his abuser?

Curtains for Tommy Robinson

As of right now, [Elon still follows Robinson](#) This could change, however, because Elon is incredibly spiteful.

A good example of Elon turning on a former plaything is the case of Matt Taibbi.

Taibbi was once a well-respected investigative journalist. This changed when Elon took over Twitter, and [he brought Taibbi in to curate the so-called Twitter Files](#) a release of internal documents exchanged between the site's former owners.

If you've never heard of the "Twitter Files", it's because nothing came out which was all that surprising. As a result, many accused Taibbi of doing paid-for propaganda on behalf of a billionaire.

Things later turned sour between Elon and Taibbi because of the journalist's relationship with Substack, a site which Elon regarded as a rival.

Since sharing links to my articles is a primary reason I come to this platform, I was alarmed and asked what was going on. I was given the option of posting articles on Twitter instead.

I'm obviously staying at Substack, and will be moving to Substack Notes next week.

The following messages show how things panned out:

It's pretty cool how some of you who act like you're friends with me are publicly gloating over Elon's decision to unfollow me. Good to know where I stand with you!

â?? Ian Miles Cheong (@ianmiles) [May 27, 2026](#)

As Cheong has 1.2 million followers on X, it looks like Elon may now be throttling the manâ??s reach.

To be clear, itâ??s almost certainly not the case that Musk unfollowed Cheong because he insulted the mother of his child. If we had to guess, weâ??d say itâ??s because Cheong drew attention to a conversation in which Ashley St. Claire talked at length about how weird and abusive Elon is.

St. Claire has [said the following](#) about Musk:

No oneâ??s going to believe me, but he was so much more normal before I got pregnant. It was a very normal conversation. His demeanor was normal. I know Iâ??m going to get roasted for this, but in private, he was funny, but then it just got so fâ??king weird, man.

Singer Grimes has also accused Musk of being manipulative and controlling in regards to their [parental arrangements](#). It doesn't end there, either, [as the Atlantic reported](#):

Musk has an undisclosed number of children that is likely well above the 14 already publicly known, and he's shown no obvious intention to stop sowing his seed.

But perhaps more interesting than the presence of contracts between Musk and his harem of mothers is the apparent absence of traditional family ties. He appears to acknowledge few, if any, bonds of genuine duty and responsibility among family members, much less bonds of care or love.

Musk seems to have reduced traditional family relationships to mere financial arrangements, undermining longtime conservative agreement around the importance of family.

What goes around comes around

All this is a roundabout way of saying that Elon is a weird and spiteful creature who is every bit the progeny of his father, which could be a problem for Tommy Robinson.

If he does lose Elon, though, he will still have his Zionist backer, as Lowkey exposed in the following thread and video:

Tommy Robinson has previously stated he would "fight for Israel in a war."

This thread examines Robinson and EDL's very clear material relationship with the Zionist Movement and considers the possibility that the racist attacks and pogroms in Britain are part of that fight.
