Deluded worldviews are everywhere in the Trump regime — they're a requirement to be part of it. Few come more twisted than white nationalist and [fanatical Zionist US ambassador to Israel Mike Huckabee](#). So twisted that Huckabee [thinks](#) Israel has a "right" to take the whole of west Asia. But Huckabee even — and completely anistorically — thinks the US wouldn't exist at all if it wasn't for Israel:

Back to front

Israel was [artificially created through ethnic cleansing and massacres](#) in 1948 by Western imperialists — including, among others, the US. To the Palestinian people and anyone with a conscience, this is known as the "Nakba", or catastrophe, and an ongoing catastrophe for humanity. To the likes of Huckabee, it's apparently the salvation of the US.
