Ben-gvir

Israel's [fascist security minister](#) Itamar Ben-Gvir has [said](#) that no matter what is agreed between the US and Iran, Israel cannot stop demolishing civilian homes in Lebanon. This, supposedly, is because Israel must control the territory from which it has ethnically cleansed more than a million innocent Lebanese people:

We cannot stop demolishing houses in southern Lebanon. We cannot stop. We cannot allow the residents of southern Lebanon to return. We must continue to control the territory even if we disagree with (US President Donald) Trump, we are an independent state.

Ben-Gvir:

We cannot stop destroying houses in southern Lebanon. We cannot stop, period.

Ben-Gvir Reprisals

Ben-Gvir made his comments to journalists at Israel's Knesset yesterday, 17 June 2026, in objection to Trump's supposed memorandum of understanding with Iran. Trump's surrender document includes Israel's complete withdrawal from Lebanon and the end of its attacks there

â?? [a â??red lineâ?? for Tehran](#) As the fascist minister spoke, Israel [continued to bomb and slaughter](#) in Lebanon in an attempt to collapse the â??MOUâ??.

Lebanese authorities say that Israel has destroyed more than 36,000 homes since March. But Ben-Gvirâ??s war crimes in Lebanon are not limited to destruction of homes and ethnic cleansing. Israel has murdered thousands during the same period.

And he has also [announced](#) plans to abduct women and children as punishment for Lebanese resistance â?? like the nazisâ?? â??reprisalsâ?? in occupied Europe.
